

## Automation Subscription Catalog

This catalog lists IBM Automation digital learning courses, which are available through a *subscription*. A subscription is a fixed-price service that is valid for a set period (such as 12 months). The subscription provides an access code to a container of training content that is hosted on IBM's Digital Learning Platform.

The courses are available in these formats:

- **Self-paced**—Provides lecture material in text, video, or interactive formats.

NOTE: Some self-paced courses are **free**. You can enroll *without* using one of the tokens that you receive with your subscription. You can *take a free self-paced course at any time*, not just during the subscription period. Click the course code to enter a course.

- **Self-paced with labs**—Includes self-paced lecture material plus hands-on exercises using IBM software.

Students have 168 hours of access to a hosted lab environment over a 31-day period to allow ample time to complete the class. The access period starts when the student launches the lab environment within the course. After the 168 hour / 31-day period, students cannot access that lab environment.

For more information, contact us at [ellearn@us.ibm.com](mailto:ellearn@us.ibm.com)

### **Learning Paths and Learning Collections**

For collections and paths on individual products refer to our set of comprehensive Learning Paths and Learning Collections are here:

<https://www.ibm.com/training/learning-paths-and-collections>

### **Cloud Pak Demos**

Demos are an in-depth collection of tasks and steps, by topic, for users in order to learn a concept. Note that these are not included in the Cloud Integration Subscription. Free content is available on demand, but all other content needs to be processed as an additional purchase.
